

THE EVOLUTION OF WHS, 1966 . . .

Educational evolution—a three-dimensional growth recognizable through academic achievements, personality development, and physical changes in the plant—characterizes '66. A full and eventful year: true to tradition with Homecoming, Heart Week, and Prom; vibrant with the spirit of change through new teachers, modern academic facilities, and individual creativity and achievement in drama, music, art, composition, and athletics.

Thus a pleasant mingling of the old with the dynamic new identifies Wayzata High, as the evolutionary process surges ahead, bringing a year of change and precedent setting to our school.
